EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Posa on 5/22/2009.

The application has been amended as follows:

In claim 1, line 8, insert --when the apparatus is fully assembled and implanted, -- before "at least the first coupling..." Also in line 8, insert --in multiple directions-- after "axial movement..."

In claim 11, line 9, insert --when the apparatus is fully assembled and implanted, -- before "both the first and second couplings..." Also in line 9, insert --in multiple directions-- after "axial movement..."

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof, could be found which disclose, or suggest an apparatus with "a plate having an upper portion, a lower portion, and a vertical midline...a pair of inferior gliding arms extending downwardly from the lower portion of the plate on respective sides of the midline, each gliding arm having a longitudinal axis that extends away from the midline at an angle, an upper end with a

first coupling ... when the apparatus is fully assembled and implanted, at least the first coupling providing a limited degree of axial movement in multiple directions of each gliding arm to facilitate flexion, extension, and lateral bending." Similarly, the prior art does not show first and second couplings providing a limited degree of axial movement in multiple direction of each gliding arm.

The prior art cited on the attached PTO-892 is relevant, but does not disclose or suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
